There are three men or women somewhere within the territory in which The Washington Herald circulates who are going to be driving around in brandnew automobiles after March 24. One of them will have a \$1,290 Mitchell, one a \$15 Saxon, and the third a \$80 Maxwell.

Two fortunate candidates will become the proud owners of two of the very best planes made. The sixth grand prize, a pianos made. The sixth grand prize, a \$250 Columbia electric motor grafonola, and \$100 worth of the latest records, is greatly desired by numerous candidates The territory extending out of Washington in each direction contains some of the best and most en rprising citizens, and there is no surprise at the growing demand for a live, progressive newspaper that furnishes accounts of the latest hap-penings at home, as well as news from every nook and corner of the civilized

If some one told you that he was go-ing to give you \$258 a week during the next five weeks you would expect to be next five weeks you would expect to be requested to perform some Herculean task in order to earn the money. Yet that is just what The Herald proposes to give to the best "vote getters" in the "50,000 Club" in the shape of a brand new model touring car. You are not asked to do a certain amount of work or to devote a special time campaigning for yotes for you can do it easily during for votes, for you can do it easily during

a small part of your spare time.

When you meet your friends from time to time, between now and March 24, instead of talking about the war, the weather, politics and the neighbors, talk to them about voting for you in the "50.000 Club." Simple, isn't it? Yes. And whether you win one of the three fine automobiles, a plano, a district prize, or the cash commission, you will find that The Herald's offer embodies the most pleas-ant and remunerative work you will get again in many months.

There is hardly a man or woman within all of the eleven districts but who has often wanted to own an up-to-date motor car, and every one knows the value of "good cold cash." Many of you are thinking of getting a new motor car, cne that you can start, stop and control by simply pressing a button. Riding with the comfort and ease of a Pullman train is one of the requirements demanded of the new motor vehicles, and the manu facturers of the three automobiles given as first, second and third grand prizes have combined all of these features and at the same time have added to the power, speed and durability of the ma

chines.

All three of the automobiles, from the Mitchell to the Maxwell, are well adapted for the road conditions in this section of the country. Those who have delayed entering the race should delay no longer for the special ballot offer of \$2.00 extra votes for every \$18 worth of new subscriptions and the extra cash prize of \$5' in gold to be given to all candidates who are so fortunate as to secure two special ballots, or in other words, \$4.000 votes, just announced, afford them the best opportunity to join the club and overtake the leaders.

In Referring to the Many Good Accomplishments of Dreco Since Its Introduction in Washington.

When seen recently at O'Donnell's 904 street store where the new medicine preco was first introduced in Washington Mr. D. H. Fulton the well-known A. In the course of Me interview Mr. Fulton referred to Render of the interview Mr. Fulton referred to Render of testimonials from some Me of the leading Washington people saying, "we have many of these."

One that seemed to interest him A especially was the one of Mrs. M. E. Fisher, of 311 Fourth street southeast. In her testimonial this lady stated that A she had long been a sufferer from indigestion, gas on the stomach and head. D. H. Fulton the well-know digestion, gas on the stomach and head-aches, that she had to be continually taking something for temporary relief, but since taking two bottles of Dreco all her troubles had disappeared. "That goes to show," he continued "that if a person will take Dreco according to directions they will soon be able to discontinue this thing of always taking medicine. Who wants to be taking a dose of medicine every night till they die? But that is what will happen if they stick to these temporary reliefs. Dreco, by its topic effect upon the organs. her troubles had disappeared. "That goes Dreco, by its tonic effect upon the organs not only gives relief, but at the same Wallace M. time tones up these organs so they will H. E. Nicho perform their duties as intended by J. B. "That testimonial," said Mr. Fulton, W. H. Taylor is characteristic of a great many we have received. After victims of Alexander Dell we have received. Fontanet Courts was the scene of a beautiful home wedding. Monday evening, when Miss Maree Josephine Hamilton, daughter of Mr. Grant Hamilton, became the bride of Mr. Andrew Jay Baer, of Denver, Colorado.

Palms and roses in profusion lent a charming atmosphere to the drawing room and formed an improvised altar for the ceremony which was performed by Dr. George Dudley, of St. Stephen's Episcopal Church.

Miss Mildred Thorne, attractively gowned in pink and carrying Killarney roses, acted as maid of honor. The bride was given in marriage by her father. She wore a gown of white satin and nearried a bouquet of roses and lilies of the valley. Her vell was caught with sprays of orange hossom.
